Cybersecurity Technology Components

Application Security Testing - DAST, SAST, etc.	Asset Management System	Endpoint Protection	Backup System	Business Resiliency System	Change Management System	Configuration Management System
Data Loss Prevention (DLP) - Endpoint	Data Loss Prevention (DLP) - Network	Deception Technology (Honeypot, Honeynet)	DNS/DDOS Protection	Document Management System	Encryption At-Rest	Encryption In-Transit
File Integrity Monitoring (FIM)	Firewall – Network, WAF, etc.	Forensics - Incident Handling	GRC System	Identity & Access Management (IAM)	Intrusion Detection / Prevention System	Learning Management System
Media Secure Erase	Mobile Device Management (MDM)	Multi-Factor Authentication (MFA)	Network Access Control (NAC)	Password Management System	Patch Management	Privileged Access Management (PAM) System
	Proxy/Gateway Protection	Remote Access - Jump Station	SIEM, SOAR, SOC - Threat Management	Vendor Management System	Vulnerability Management System
